DOLLY SPARE PARTS[®], FROM THE "FIX EVERYTHING CLUB"

**Dolly Spare Parts[®] are Club dei Riparatori[®]
by IDROBASE[®] GROUP products.**

The "Dolly range" from the Club dei Riparatori is an extensive range of spare parts fitting over **1.500 pump models** for high pressure washers containing the same interchangeable characteristics as other products from **18 pump manufacturers**.

Choose a **single supplier** to buy **all the spare parts** that you need to repair all the pumps of **all high-pressure washers**.

This saving is the result of the special organisational structure of the Club dei Riparatori, which does not use agents to promote its products but instead focuses its efforts on assuring a real time response and **dispatching customer orders within 3 days** thanks to a large supply of spare parts and the automated order management process which makes use of high tech vertical warehouse storage.

Dolly Spare Parts for Pressure Washer Pumps: what are the plus?

The complete range of spare parts for over 1.500 pump models from 18 manufacturers

How to replace valves and O-rings of a professional hp washer

Our vertical warehouses house, with thousands of components and spare parts

Dolly Spare parts: from the fix everything Club

EVERYTHING YOU NEED TO THE MAINTENANCE OF ANY KIND OF PUMP

In the following table you can find the sets, studied by our technicians, which contain **all the essential parts** for **the maintenance of any kind of pump**, with a **saving of 10%** compared to the purchase of the individual components.

General maintenance set includes:

- 1 valves kit
- 1 O-rings set for brass caps
- 3 complete seals packings
- 1 plunger oil seals kit
- 0,5L mineral oil for h.p. pumps
- 10ml threadlocker medium
- 25ml technical grease

PUMP MAINTENANCE SET

General maintenance set includes:

- 1 valves kit
- 1 O-rings set for brass caps
- 3 complete seals packings
- 1 plunger oil seals kit
- 0,5L mineral oil for h.p. pumps
- 10ml threadlocker medium
- 25ml technical grease

How to replace valves
and O-rings of a
professional h.p. washer?

Special tools for pumps
preventive maintenance

CHOOSE THE POWER OF COMPATIBILITY

The kits in the **Dolly Spare Parts** line allow you to have spare parts perfectly suited to the pumps and h.p. washers made by the **widest range of manufacturers**. All the advantages and features of the original pieces, but with the extra benefit of **25% lower prices on average**. Our valves and seals are perfect for use in **car washes** and **industrial applications**. Providing excellent performance with operating temperatures **up to 85°C**.

Dolly Spare Parts by Idrobase Group, and in any case all spare parts in this offer, are not original spare parts, but they are high quality spare parts. Dolly Spare Parts are fitting machines and accessories of other manufacturers although made according to the technical specifications and production standards of Idrobase. The original item number, original brand name and any other reference or information about that manufacturer shall be provided for the exclusive and sole purpose of making known to the reseller and to the end-user that Idrobase product has a self-serving purpose or anyway related to the original product to which the mark refers, that is to say the sole and exclusive practical purpose of indicating the correct use of the Idrobase spare part and its destination. The references cited are purely indicative: the retailer and the final user must check on the catalog page that the item presented has the required characteristics.

Dolly Spare Parts by Idrobase Group, and in any case all spare parts in this offer, are **NOT** original spare parts, but they are high quality spare parts. Dolly Spare Parts are fitting machines and accessories of other manufacturers although made according to the technical specifications and production standards of Idrobase. The original item number, original brand name and any other reference or information about that manufacturer shall be provided for the exclusive and sole purpose of making known to the reseller and to the end-user that Idrobase product has a self-serving purpose or anyway related to the original product to which the mark refers, that is to say the sole and exclusive practical purpose of indicating the correct use of the Idrobase spare part and its destination.

The references cited are purely indicative: the retailer and the final user must check on the catalog page that the item presented has the required characteristics.

* includes seegers and spring holders / ** without brass rings

Dolly Spare Parts by Idrobase Group, and in any case all spare parts in this offer, are not original spare parts, but they are high quality spare parts. Dolly Spare Parts are fitting machines and accessories of other manufacturers although made according to the technical specifications and production standards of Idrobase. The original item number, original brand name and any other reference or information about that manufacturer shall be provided for the exclusive and sole purpose of making known to the reseller and to the end-user that Idrobase product has a self-serving purpose or anyway related to the original product to which the mark refers, that is to say the sole and exclusive practical purpose of indicating the correct use of the Idrobase spare part and its destination. The references cited are purely indicative: the retailer and the final user must check on the catalog page that the item presented has the required characteristics.

Dolly Spare Parts by Idrobase Group, and in any case all spare parts in this offer, are not original spare parts, but they are high quality spare parts. Dolly Spare Parts are fitting machines and accessories of other manufacturers although made according to the technical specifications and production standards of Idrobase. The original item number, original brand name and any other reference or information about that manufacturer shall be provided for the exclusive and sole purpose of making known to the reseller and to the end-user that Idrobase product has a self-serving purpose or anyway related to the original product to which the mark refers, that is to say the sole and exclusive practical purpose of indicating the correct use of the Idrobase spare part and its destination. The references cited are purely indicative: the retailer and the final user must check on the catalog page that the item presented has the required characteristics.

Copyrights© to this catalogue belong to IDROBASE GROUP® Srl. Reading, reference and dissemination in paper or electronic formats for personal use are permitted. Use for commercial purposes is not permitted, nor is any type of alteration except with the written consent of IDROBASE GROUP® Srl.

This catalogue cancels and supersedes the earlier version.

This catalogue provides general information on the products supplied by IDROBASE GROUP® Srl.

It is intended for retailers, system engineers, designers and more generally, all those who are already adequately familiar with said products, the materials from which they are made, their characteristics, efficiency and operation; it is therefore not intended for consumers who, in order to handle, install or perform any operation with the goods described here, must necessarily contact qualified and skilled personnel.

Also, with regard to skilled personnel, this catalogue should be considered a mere commercial tool, not containing the necessary technical specifications - which may be obtained free of charge from Idrobase, and as such, not suitable for use as a single go-to reference tool for the design, construction or installation of any kind of system.

The illustrations, technical characteristics, functions and other information given here about individual products, systems, installations and the like are based on the current state of the art: however, only the most immediately applicable information can be reproduced here, without any consideration for the global data necessary to design, implement and install any system, which must therefore be carefully assessed by designers, system engineers and installers.

Therefore, for specific indications on all products in the catalogue, please contact our main office, where competent staff are always on hand to answer any additional queries.

All the illustrations reproduced here may be slightly different from actual products and therefore, they should simply be intended as closely representing real items.

We reserve the right to introduce changes in all the products. For this reason, too, it is advisable to directly contact our main office.

In case of doubts regarding interpretation, the original Italian text will prevail.

When a new reprint is published, the present edition will no longer be valid.
